

Proposals for Conservation and Management

Council recommendations regarding HUNTING METHODS

With respect to struck and lost:

- For Greenland to collect SL data on narwhal and beluga.
- For Iceland to collect SL data on harbour and grey seal
- For Norway to collect SL data on harp seal

With respect to video penthrite grenade-99:

Greenland has developed in collaboration with Henriksen Mekaniske Verksted (manufacturers of the grenade) an instruction video on handling of the penthrite grenade-99 on harpoon guns.

- For member countries to support the completion of the video on penthrite grenade-99.
