

# **DRAFT - OBSERVATION SCHEME – OBSERVER REPORT**

The form is based on the 3 different existing reports that observers have used. Eriksson, Levermann and Winsnes discussed reporting on the 17 July skype meeting and agreed to propose developing one reporting form that would combine the previous 3. It was also discussed if it would be required to develop forms for different categories of hunts.

- Collective rifle and rifle/harpoon hunts: GL minke, all small whales
